- How to start a school health center
- School district - health provider partnership formation and coordination
- Financing and sustaining school health centers
- Information sharing practices and laws across schools and health care in CA (HIPAA-FERPA)*

Operations and practice
- How school health centers can better integrate into their schools
- How school health centers improve student attendance and support student success
- School-based nutrition and physical activity program development and expansion
- School-based adolescent health care, reproductive health services, and sexual health education
- Role of school health centers in public health initiatives (e.g., pertussis/Tdap immunization)
- How school health centers fit within “full-service community schools”

Community engagement and youth leadership
- Parent and community engagement in school health centers
- Building local support/school health messaging with different stakeholders (for youth and adults)
- Youth engagement for adult allies (how to engage youth in health advocacy and leadership)
- Youth meeting facilitation for adult allies
- Youth-led participatory research
- Social marketing for youth leaders
- School health advocacy for youth leaders

Note: Workshop content can be modified to meet the specific needs of a community, and may be lengthened for a negotiated rate.

All workshops include:
- Power point presentation
- Participant handouts
- Related CSHC toolkits and resources
- Best practices
- Case studies
- Facilitated networking and collaborative sharing
- Local resources
