

## CHILD HEALTH PLAN

### A healthy future starts today

Your child's health helps shape his or her future. After all, health affects everything from physical and emotional well-being to academic performance. By enrolling your child in Kaiser Permanente Child Health Plan, you can ensure that your child receives the health care he or she needs to thrive. Depending on your family size and income, your monthly premium may be just \$8 or \$15 per child, for up to three children. (Additional children are covered at no extra premium.)

### Is your child eligible?

You're invited to sign your child up for Child Health Plan if

- your child is under 19 and is not currently insured,
- your child is not eligible for government health coverage—such as Medi-Cal or California Children's Services (CCS)—or health coverage that is paid for, in any part, by an employer, and
- your family's income does not exceed the amounts indicated in the chart below.
